

UUFRC Piano Usage Reminders

We're so happy to share this beautiful instrument as a part of your event. A **\$200.00 deposit** is required and will be returned, provided the instrument is determined to be without any problems following your usage.

So that we may ensure many more years of wonderful music, ***please be mindful*** of the following requests:

- Remove and fold the piano cover so that the white felt-side is on the inside. Store the piano cover, black side out, in the storage room, on top of the table. Do not put the piano cover on the ground.
- Have two people move the piano to the desired location. One person, who faces the keyboard, pushes the piano, and the second person guides the piano along the tail. Or, each person stands on either side (spine/straight side and bent side) of the piano, while pushing/guiding.
- When moving the piano bench, do not drag it across the floor. Pick it up. Do not stand on the piano bench at any time.
- Do not place anything on top of the piano (i.e., staples, paper clips, pens, pencils, books, cups, drinks, plates, food, etc.).
- Clean hands = a clean keyboard.
- Do not use the piano lid as a writing surface.
- When moving the piano, do not place it over or near a heater vent.
- When you have finished using the piano, please be sure to close the main/front lid, lower the music desk, and close the fallboard.
- Replace the piano cover and the two signs atop the piano.

On behalf of our Kawai, we appreciate your care and diligence.
